Overnight Services
This service is designed to keep elderly safe at home during the evening hours. While these clients may have family and friends visiting during the day hours, evenings are spent alone. Our overnight staff will assist to and from the bathroom to ensure the client safety. Their duties are limited to the following. Assist with changing into bed clothes, Be alert once client is asleep, Ensure that elderly is safely out of bed in the morning before leaving.

Case Management
All cases over 100 hours/week have case managers assigned to them. This person will coordinate services being provided by our field staff or other professionals. This helps to keep everything organized and as simple as possible. Many Attorneys and private social workers find this service extremely helpful in reducing the number of calls they receive regarding the elderly care. It is also beneficial to a client whose family lives out of the area and cannot be involved with doctor’s appointments, shopping and other everyday needs. Services performed includes: Coordinate appointments, confirm staffing schedules, and following up appointments with the nurse and ensure that weekly shopping is done.
